Oasis Water Purification Tablets provide the World Health Organisation (WHO) recommended 5ppm for emergency water purification. For household situations where a clean source is used, dosage of the tablets is adjusted to the recommended 2ppm.

- Oasis Water Purification Tablets are manufactured in the UK by Hydrachem, the leading manufacturer of NaDCC chlorine tablets. Hydrachem is a quality registered firm to BS EN ISO 9001
- The manufacturing process and procedure are in line with the European GMP guidelines and pharmaceutical standards
- The packaging and shelf life of the tablets has been verified through stability studies performed to the International Conference on Harmonisation Guidelines (ICH)
- The active ingredient, Trocloses Sodium, is approved by the US Environmental Protection Agency (EPA) for routine treatment of drinking water, meets European Standards (EN12931:2000) and World Health Organization (WHO) and Food and Agricultural Organisation (FAO) specifications for drinking water
- Oasis tablets meet the NSF / ANSI Standard 60 (Drinking Water Treatment Chemicals) as certified by NSF International
- Oasis Water Purification Tablets are Halal and Kosher certified against Halal and Kosher standards

Oasis Water Purification Tablets are effective against:

- ✓ *Salmonella typhi*
- ✓ *Shigella sonnei*
- ✓ *Escherichia coli*
- ✓ *Vibro Cholerae*
- ✓ *Streptococcus Faecali*
- ✓ *Schistosomiasis (Bilharzia)*

Heritage

Established in 1973, Hydrachem are a global leader in the manufacture of Chlorine (NaDCC) Tablets. These tablets have applications in a wide range of markets from Surface Disinfection to Water Purification and Baby Bottle Sterilising. An established authority in the fields of surface disinfection and water purification, we operate across 60 countries around the world, partnering with high profile, non-profit organisations, countless market-leading healthcare institutions and the NHS. Along with our own brands, we also contract manufacture own label products for some of the world's most prominent companies in the field of professional hygiene.
