

# DD Poncho - Tarp

Versatile & waterproof poncho shelter

Stormproof

Versatile

DD Multicam

8 Attachment Points

The DD Poncho - Tarp is a fully stormproof and multi-use product. It provides full-body stormproof coverage which is spacious enough to cover the user as well as a large rucksack. The sides are fastened with press-studs, and the large hood gives plenty of protection from foul weather.

The poncho can also be used as a tarp shelter, either on the ground or set up across a ridgeline due to its' 8 reinforced attachment points. Measuring 2.5m x 1.4m, it is an ideal size for a day-shelter or 1-person bivi shelter. The hood has a drawstring fastening, which can be drawn tight, and tied off to make it fully waterproof.

The DD Poncho Tarp is made from 190T / 68D Polyester with a waterproof PU coating, rated to a minimum of 3,000mm to assure full protection from rain.
